OUR HISTORY CHRONOLOGY

Foundation

It all started with a small family-owned company consisting of no more than 10 people, selling metal-cutting tools

1999

New office and production complex construction

Completed a new 4,000 m² company building and a 1,500 m² finished products warehouse.

2017

Received the “Best Company in the Industry” title

2020

2012

All company employees are experts who received specialized higher education in the field of metal-cutting tools, so they brought to life their long-time idea – started their own production.

Launching our own production
